1. Something Different
Music and Lyrics by Ari Goldwag

There's something different in the air
Things are changing everywhere
All the walls are crumbling down
Emptiness is all around

Angry voices serenade
tauntingly their music plays
Somewhere in the raucous din
A quiet voice is there within

Chorus:
Clear away the layers of anger and sorrow
Open up your heart to the gift of tomorrow
Find the love, accept what you're given with gladness
Open up the door and escape from your sadness

The secret hidden in your heart
Hashem has been there from the start
Waiting for you patiently
to open up your destiny

All you need to see His hand
to begin to understand
Move beyond your selfish drive
Reveal the love you have inside

Chorus

2. Angels Out
Music and Lyrics by Dror Kivodi

We all run around and live these crazy lives
Desperately we need to find some peace of mind
Peace of mind

The darkness that surrounds us day and night
Can be banished with a bit of candlelight
Candlelight

Chorus:
There are angels out tonight
Won't you welcome them inside
Reserve a space in time
To sanctify your life

These wounded hearts can slowly start to heal
We just need to touch and feel something real
Something real
3. Chanukah Light
Music and Lyrics by Ari Goldwag
Walking in the darkness, sorrow all around
Looking for some joy, for a hopeful sound
Just when I start to give up, seems there's nothing there
A little glow appears, shining from nowhere

Chorus:
Chanukah light burns so bright
Lifts my soul raises my sights
Chanukah light feels so right
Eight small flames shining through the night

The darkness starts to lift now, help is on its way
Hopelessness is starting to fade away
I lift my eyes to heaven where my help is from
The light, now, from the flames shines for everyone

Chorus

Bridge:
The light is piercing through the darkness
Shining 'til forever
There's hope and love and brotherhood
That's bringing us together
Open up your heart, make a brand new start
Chanukah's the time to take part

Chorus

4. Your smile
Music by Ari Goldwag
Lyrics by Leah Rubabshi

When nights are long and skies are looking grey
And times are rough 'cuz clouds get in the way
One look at you, and in just a little while
I find my strength when I see your smile
Your eyes are sunshine, your heart is sweet and pure
You give me hope when I feel so unsure
You stand up tall ignoring all the pain
And reach up high while moving past the rain

Chorus:
Your smile says more than words could ever say
Watching you, the clouds all blow away
You are more than all the world can see
You are everything to me

There's no mistake, we do our best each day
The cards we're dealt can be so hard to play
But then I see the spark you have inside
You smile your smile, the whole world opens wide
You take my hand, my heart begins to sing
You give me joy with all the love you bring
And during times when life can get me down
I look at you, my whole world turns around.

Chorus
5. Up To You Now  
Music and Lyrics by Dror Kivodi

I've walked your streets, I know your face
I've followed you around from place to place
And stepping from the shadows of your mind
There's much you'd like to hide, there's much you'd like to hide

And you hear me sing,
but you never hear the words
Through all the traffic, nothing's ever heard
But can't you hear the beating of your heart
Don't you realize who you are,
don't you realize who you are

Chorus:
There's never gonna be anyone like you
No one's gonna sing your tune
No one's gonna be what you've got to be
No one's gonna be like you
There is a gift you've got to give
No one's gonna give but you
There is but one life that you have to live
No one's gonna live but you
It's up to you now

As I reflect upon the mirrors of your heart
I understand the paradox you are
And watching from the corner of my eye
I know you'd like to try,
I know you'd like to try

And you hear me sing, and you try to hear the words
But you never understand, you never learn
Our world, my friend, is going up in flames
Is there any other way, is there any other way

Chorus

Bridge:
Somehow, somewhy, somewhere,
someone's gonna call your name
Stand up, say your lines now nice and strong
'Cuz everybody's got a role
that they were born to play
It's up to you now to perform

And everywhere you go, you know,
you will find your way
Something's gonna show where you belong
Yeah, everybody's got that road
that they were born to take
It's up to you to move along

6. Take Me Home  
Music and Lyrics by Miriam Israeli

Every Jew, no matter where
Dreams of a land we hold so dear
A land so rich with heritage
A land for which we yearn
Our roots run deep beneath this land
Through mountain peaks and desert sands
The fields of green, the ancient ruins
All beckoning, "Return."
And every Jewish heart calls out in prayer:
Take me home to the land of lands
Take me home where the kotel stands
Take me home, take me home.
Take me home, to the bluest skies
Take me home, where my prayers can rise
Take me home, take me home.

Three times a day we'll turn this way
Our hearts will pray, our lips will say
Im eshkachech, I can't forget
the land where I belong
The holiness felt all around
Our history speaks from the ground
Our past and our future merge
in one majestic song

And every Jewish soul calls out in prayer:
Take me home where the mountains sing
Take me home where my soul takes wing
Take me home, take me home.
Take me home, where our fathers dwelt
Take me home, where the kedusha's felt
Take me home, take me home.

Now's the time to dance, now's the time to sing
Get into the habit now, forget 'most everything
Don't wait 'til tomorrow when there's no more sorrow
Dance today, dance anyway, until the tears all go away

Chorus:
Forever dance, yes it's the forever dance
Dancing now together, dancing 'til forever
All of us will join as one, dancing with the Holy One
Forever dance, yes it's the forever dance
Dancing with each other, all of us as brothers
It's so special can't you see,
won't you come and dance with me

And if we practice while we can,
even in this darkness land
Even as the exile continues to expand
When the time has truly come,
and the job has all been done
We'll all join our hands and dance together as one
in the...

Chorus

We'll join the righteous' circle dance,
'cuz we've practiced in advance
Pointing all together toward forever
Joining now such joy we'll see,
singing with such ecstasy
Open up your hearts and you can all join with me
in the...

Chorus

Music and Lyrics by Ari Goldwag

8. Teiman
Music and Lyrics by Miriam Israeli

From Teiman to Eretz Yisroel,
we crossed the desert sand
Our eyes and hearts were shining
with the hope of the promised land
But our dreams were cruelly shattered,
so mistaken was our trust
For our heritage was taken
and trampled in the dust
Our legacy was laughed at,
our costumes met with scorn
Our clothes were made a mockery,
our payos cruelly shorn
And so many of our children
disappeared without a trace
And my eldest son was stolen
now no one can fill his place

Chorus:
Where are you today
my child for whom I pray
I wonder if you're happy,
I wonder if you know that
You belong to someone else,
you belong to me

I recall that bitter moment
when they told us you were gone
I thought my heart was breaking,
didn't know how I'd go on
For a voice within me whispered
you were still alive somewhere

But I knew I couldn't find you,
I was helpless with despair
We asked where you'd been buried,
so we'd have a place to cry
But so many of our questions
were answered with a lie
Now the tearing pain of loss remains with us throughout the years
And my heart continues grieving,
no, I can not stop the tears

Chorus

Were you taught to read the Alef Beis,
do you say Shema at night
Have you felt the joy of Shabbos
when the candles are alight
Do you know you were Bar Mitzvah,
on Yom Kippur, do you fast
Were you told that you are rooted
in a proud and ancient past
Do you know you have a family
whom you haven't even met
They ask about you always, they never will forget
And each Friday night, I pray for you,
when the Shabbos candles shine
For a mother is forever, and forever you'll be mine

9. Choices
Music and Lyrics by Miriam Israeli

When there's a choice you're contemplating
You've got to be discriminating
We'll make you any flavor that you crave or that you savor
So be braver and don't waver - just choose
You hear so many different voices
Urging you to make your choices
We'll tempt you, tantalize you,
we'll entice you, we'll surprise you
If you're wise you'll see we'll size you up
To see if you're a spender
So choose your vendor
But don't surrender your free will to...

Chorus (one):
Make the right choice, know what you'll get
Be sure it isn't something that you'll later regret
As long as you're living, don't wait to be given
Another chance to make the right choice
So, make the right choice, 'cuz you're gonna pay
And you're the one to eat it
at the end of the day
As long as you're living,
make sure that you're driven
To think it out and make the right choice

Be careful, be suspicious,
what may seem to be delicious
May not really be nutritious at all
And you've got to be clever, It's now or never
To choose whatever you like best so...

Chorus (two):
Make the right choice, don't be a fool
Before you play the game
make sure you know all the rules
As long as you're living, don't wait to be given
Another chance to make the right choice
So, make the right choice, and then don't be swayed
Ignore the one's who tempt in an attempt to persuade
As long as you're living, make sure that you're driven
To think it out and make the right choice

Chorus (one - repeats)
This life that you're living is all the you're given
To think it out and right make the right choice
So think it out and right make the right choice

You'd like to sample something more now
Not just what you've had before now
But it's a risk that you'll be taking, 'cuz you
might just be mistaken
Disappointed, really shaken up
You gravitate to something newer
But what's been tried is surely truer
10. Live in the Sky
Music and Lyrics by Dror Kivodi

Walking down a one-way street
Watching what reality has done to all my dreams
It has become clearer to see
Things are not the way they used to seem
Feeling like a man without a name
Up 'til now, I was simply playing with the game
But time has declared I can't remain
And whatever road I take, I'll never be the same

Chorus:
To live in the sky, if only somehow
To be in the right, I don't know how
But to just turn aside, I can't go now
Oh, to live in the sky

In a world of black and white
We just try to get it right
It's the story of our lives, I am afraid

Now walking down that road, I think I see
That there is a future that's awaiting you and me
And although you may be right that I'm naive
I'd rather be a fool than not believe
For although this road will have its share of pain
And although we are the choices that we make along the way
The direction of that road remains the same
As high as we can say, as high as we can pray

Chorus:
Come let us fly, we can make it
Climb ever-high, overtake it
Shouldn't we try, don't forsake it
Oh, to live in the sky
